## COMPANY OVERVIEW

Bituminous Roadways, Inc. is a full-service asphalt paving contractor providing our customers with superior asphalt paving solutions. For more than 75 years, BR has been an industry leader providing customers high quality results. We are dedicated to safety, innovation, continual improvement, environmental stewardship and most importantly, superior customer service.

BR develops and maintains quality working relationships with many commercial-industrial firms, property managers, municipalities, school districts, architects, utility companies, general contractors, engineering firms and developers.

From commercial/industrial pothole repair to interstate highway paving, no project is too big or too small for BR. Our core competencies range from asphalt production, paving for new and existing sites, patching, cracksealing and concrete repair to milling, excavating, installing underground utilities and grading of all pavement areas; including parking lots, roadways, trails, and athletic surfaces such as tennis, basketball and pickleball courts.
