## **BITUMINOUS ROADWAYS INC. EARNS DIAMOND PAVING COMMENDATION**

Lanham, MD — The National Asphalt Pavement Association (NAPA) announced that, Bituminous Roadways Inc. of Mendota Heights, MN has earned NAPA's Diamond Paving Commendation.

The Diamond Paving Commendation is a nationally recognized program that focuses on training practices that result in excellence in paving operations. NAPA Chairman, Kevin Kelly stated, "Earning the Diamond Paving Commendation shows that contractors are committed to excellence in asphalt pavement construction practices through well-trained, well-educated workforces that puts best practices to use."

NAPA developed the Diamond Paving program in 2010. The areas evaluated through the self-assessment process are Quality Control, Work Zone Safety Practices, Site Preparation and Planning, Paver Operations, Compaction, and Training. Earning the Commendation is a mark of distinction, signifying a company that follows the blueprint for excellence in paving operations through continuous improvement.

Bituminous Roadways, Inc. has been in business for more than 70 years with a mission to transform the asphalt paving industry. Core competencies range from asphalt paving, patching, crack-filling and milling, to excavating and grading. Projects include parking lots, streets and highways, trails, athletic surfaces, and more. The corporate headquarters is located at 1520 Commerce Dr., Mendota Heights, MN. For more information, visit [www.bitroads.com](http://www.bitroads.com).

*The National Asphalt Pavement Association is the only trade association that exclusively represents the interests of the asphalt pavement material producer/contractor on the national level with Congress, government agencies, and other national trade and business organizations. NAPA supports an active research program designed to improve the quality of asphalt pavements and paving techniques used in the construction of roads, streets, highways, parking lots, airports, and environmental and recreational facilities. The association provides technical, educational, and marketing materials and information to its members; supplies product information to users and specifiers of paving materials; and conducts training courses. The association, which counts more than 1,100 companies as its members, was founded in 1955.*
